# Welcome

to our new S/S 2024 catalogue which is full of brand new, innovative products as well as our traditional favourites to entice customers to your store. We have newness in every category from traditional puzzles to BRIO to games, so there really is something for everyone.

We are very privileged that we operate in a toy industry that is traditionally robust to economic forces but we acknowledge the challenging times in the UK so have decided to hold our prices on every SKU in 2024. Awesome product at the same price!

We also appreciate that time is precious so have introduced our new SANA portal to put you in control of your buying journey. On SANA you can place an order, see the up-to-date inventory holding, check the latest marketing activity, download your invoices and so much more. Please reach out to your Ravensburger contact for more information. We know the importance of the visits that our team make to your stores so they will continue at the same level – if not more! SANA can support those visits and allow for fruitful, engaging discussion on how we can grow our business together.

Some of the highlights of the catalogue include;

## Children's Puzzles

We have new licences for Children's puzzles from BatWheels, Disney Stitch and one of the biggest movie launches in 2024; Despicable Me 4. Plus new fresh images on Gabby's Dollhouse, Paw Patrol Jungle Pups, Paddington, Disney Princess, Spidey and his Amazing Friends and, to celebrate its 25th anniversary, The Gruffalo. For those that like an extra challenge there is a brand new XXL 100 piece puzzle featuring Pierre the Maze Detective. Good luck!

## Adult Puzzles

We are excited to bring you some extensions to some of our most popular collections. We have #9 of our *Leisure Days* range: A Country Drive as well as #11 in the *My Haven* range: The Artists Shed. We are introducing licences to our wooden puzzle range with the ever-popular Pikachu (300pc) and the beloved Disney Stitch (150pc). Plus additions to our more challenging circular puzzles which your customers are using in very imaginative ways including bespoke coffee table tops!

## GraviTrax

*GraviTrax Bounce* is a new starter set at a competitive SRP of £40 in limited distribution. It comes with two elements including the trampoline to guarantee fun and excitement for all ages. Plus we are introducing *GraviTrax GO*, a compelling offer at £15 SRP, perfect for gifting or those looking at an entry into the GraviTrax world.

## Games

With the developing trend in strategy games, we have new products for beginners all the way through to experienced players. *Mycelia* is a beautiful game designed as an introduction to deck building whilst *Council of Shadows* will challenge the expert players out there! For those family games that you can play right out of the box then *Garden Heist* is sure to be a winner.

## Disney Lorcana

We are proud to introduce Set 3 of *Disney Lorcana*, launching exclusively to Hobby Stores on February 23rd. The details are still under wraps as we go to print so keep your eyes on our social media channels for updates, sneak peaks and much, much more.

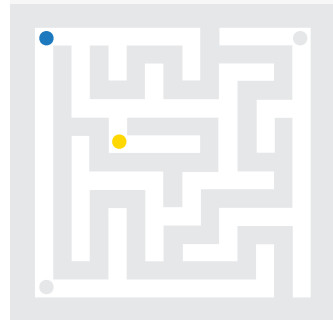

## BRIO

Get as close as you dare to the BRIO dinosaurs! Each dinosaur has moving parts, magnets, grips or other features to lift the play value and a create more realistic animal play. Two new sets allow your customers to embark on a prehistoric adventure! Back in the modern world we are adding the London Underground to our *Trains of the World* series. Plus we have developed a Steam and Go Train for our Toddler range. Press the button and off the train goes, producing safe-to-touch steam effects from its chimney as it drives across the room!

I hope you enjoy the catalogue. Thank you once again for your continued partnership.

**SMART  
TECH**  
SOUND

"With all our Smart Tech Sound products, the child is in control of an interactive play environment. For example, by using different tunnels in different places, a train can stop, reverse and play a sound the child recorded earlier. These interactive features add surprise and richer play value to the imaginative play."

Erik Söderlind, Head of Design

## SMARTTECH SOUND

- The child is in charge of an interactive play environment full of experimentation and customisation options.
- Integrated Smart Tech Sound technology increases functionality and play value through cause and effect play.

### 33835 Light Up Construction Crane

At almost half a meter tall, the Light Up Construction Crane is ready to take on any building challenges within BRIO World. Managing cargo and constructions has never been so much fun as with this fully-functioning tower crane. It comes equipped with a 360-degree rotating tower, working trolley that slides across the jib and magnetic hook which you can raise and lower on a wire string by twisting the red knob. Everyone down on the ground is bound to take notice when the operator begins moving the crane's arm from the comfort of the cab, automatically switching on the realistic lights that run down the top of the jib. The construction play of this familiar tower crane helps children's development by promoting logical thinking and improving fine motor skills in a recognizable scenario.

### 33996 Container Crane

Managing all the heavy shipping containers at the BRIO World dock is no problem with this Container Crane. Take a seat on top of this big, green, railway accessory and get to work. Grab one of the containers with the magnetic hook, then rotate and slide the large crane into position above the tracks. "Left a little, right a little. Perfect!". Lower the wooden cargo into place using the winch and lock it in with the red lid before it drops perfectly onto the awaiting wagon below.

### 33743 Light Signal

Safety is always the most important aspect of a well operated train network. This Light Signal is an easy and clever solution, to help your trains know when to stop, and when to let the other traffic through. Ideally the Light Signal can be used either with the Train Station, next to the Railway Crossing, with the Magnetic Action-crossing or even alongside a bridge or the Car Park. But as it is your world, just let your imagination run free and place the Light Signal anywhere in your BRIO World. At the top of the light is a red button which when pressed, activates the light signal – red means stop, yellow means wait and green means ready for new adventures!

Sustainability is an integrated part of our culture. We take measures for a healthy climate and sustained resources. We care about lifelong education, and how we treat each other and the people around us.

“Encourage discovery of what really matters.”

We are proud of this mission, but it only makes sense in a healthy and safe environment: a planet to nurture us, a society to sustain us and progress to give everyone a future worth living. We must act to make it happen.
